About me

I am a fullstack web developer, currently working at Rica Design, a company based in Barcelona, Spain.

I am a person in constant learning, with a flexible and curious mind. I'm always looking to acquire new tools, languages, frameworks and libraries, but above all, I strive to learn about architecture, design patterns and programming fundamentals every day.

Technology Stack

HTML5 & CSS3	Express
JavaScript	MySQL
React JS	MongoDB
Vue	PHP
TypeScript	Laravel
Node JS	
Docker	

Languages

English C2

Franco Felicioni
